Gerard. These look good. I listened to the news throughout the noon hour. Also searched the web. I don't see anything new. I also don't see any action moving forward by the police.

Are there any updates your team has seen before I roll these up for the Minister? If trucks are back up for 18 kilometres there must be some truckloads of live animals in that column? I.e. Not just the large 1 February shipment concern.

I am a bit surprised that the GOA Blockade plan has not been activated. Without a GOA emissary, it's all on the Police.

John

Subject: FW: Border blockade

Hi John,

Attached is what Peters team put together. Needless to say that this situation is quickly evolving.

Thanks,

Gerard
